Re: Application No. 10/031,776 – Amendments after allowance.

Dear Alex P. Rada,

This is in response to the action which was mailed to me on 05/05/2006.

I attach amended specification and claims as requested in the action. Apart from the changes listed below, the text is identical to the previous version.

I believe I have answered all the matters that were raised in the action.

The amendments to the specification are:

- 1) Add headings, and in empty sections add the words “not applicable”.
- 2) Add one paragraph describing Figure 6 in the section titled “Managing *Visipur*” (last paragraph of p.7 of the attached specification). The paragraph does not add material because it just clarifies the meaning of the features in the figure.

The claims to the specification are:

- 3) Change the spelling of “behaviour” to “behavior”.
- 4) Remove redundant occurrences of the word “the”.
